**LAS**

Line and Antenna Sweeping

*Certified*  
*Line and Antenna Sweeping*

**Michael J. Mayher , LAS110650**  
**Bay Village, Ohio**

has successfully completed the technical examinations and requirements to be universally recognized for competency, ability, and knowledge as a Certified Line and Antenna Sweeping Technician. To be recognized for this honor, practicing technicians must pass a written examination in Line and Antenna Sweeping procedures and technology as well as a hands on skills test. Only well-trained and skilled professionals are able to accomplish this feat. The Electronics Technicians Association takes great pride in presenting this official recognition to the above-named expert technician. His/her name has been published in the High-Tech News journal, imbedded in the ETA-I permanent global data base, and is available for recognition by officials of the industry. This individual may display the LAS identification items or advertise his/her level of accomplishment as a technician. Congratulations from ETA officers and members and the electronics industry. Recertification takes place every four (4) years and may be accomplished by acquiring college, tech school, association or manufacturer training session credits, or by testing in the same field of electronics technology.
